

HEPA AIR SCRUBBERS AND NEGATIVE AIR MACHINES: Filtration of the Air is becoming more important nowadays. The Guardian line of HEPA scrubbers and negative air machines are offered. The Guardian R System is the most compact, portable True HEPA air filtration device made. Its energy-efficient Rotomold design is durable, lightweight and stackable, making it the ultimate Scrubber in both portability and performance. The portable Guardian stainless steel air scrubber is sharp looking, efficient and adequate for the larger areas.
